KEY TO USING THIS CURRICULUM	ii
WORKSHOP 1: INTRODUCTION TO AN IPAD	ii
LESSON PLAN	1
1. WHAT IS AN IPAD?	2
2. WHAT CAN AN IPAD DO?	2
3. YOUR IPAD ACCESSORIES	2
4. BUTTONS	2
5. GETTING AN IPAD STARTED	2
A. TO SLEEP AND WAKE THE IPAD:	2
B. TO TURN THE IPAD ON AND OFF:	3
6. IPAD HOME SCREEN AND APPS	3
A. IPAD APPS	3
B. MANAGING APPS	3
C. CREATE A FOLDER	3
D. SEARCH AN APP	3
E. DELETE AN APP	3
F. IMPORTANT APPS ON YOUR IPAD	4
WORKSHOP 2: WI-FI, INTERNET & ACCESSIBILITY SETTINGS	5
LESSON PLAN	5
ACCESSIBILITY SETTINGS:	6
1. VOICE OVER	6
2. ZOOM	6
3. LARGE TEXT	6
4. SPEAK SELECTION	6
WI-FI:	7
1. WHAT IS WI-FI	7
2. HOW TO CONNECT WI-FI	7
THE INTERNET:	7
1. WHAT IS INTERNET?	7
2. WHAT CAN WE DO WITH INTERNET?	7
3. WE HAVE TO BE CAREFUL ON INTERNET	7
4. HOW TO USE INTERNET ON MY IPAD	8
WORKSHOP 3: SETUP E-MAIL ID, APPLE ID AND PASSWORD	9
LESSON PLAN:	9
1. WHAT IS AN E-MAIL	10
A. HOW TO CREATE AN E-MAIL ID	10
B. CHECKING AND READING E-MAIL	10
C. SENDING MAIL	10
2. APPLE ID	10
A. HOW TO CREATE APPLE ID	10
3. PASSWORD	11
WORKSHOP 4: DOWNLOAD APPS FROM APP STORE, USE OF IMESSAGE AND FACETIME	12
LESSON PLAN:	12

DOWNLOAD APPS FROM APP STORE.....	13
A. WHAT IS AN APP	13
B. ARE ALL IPAD APPS FREE?	13
C. HOW DO I PURCHASE AN APP	13
D. HOW TO DOWNLOAD AN APP.....	13
2. IMESSAGE	13
A. SEND A MESSAGE.....	14
B. SEND YOUR LOCATION TO A FRIEND	14
3. FACETIME	14
A. MAKING A FACETIME CALL	14
WORKSHOP 5: YOUTUBE AND GOOGLE APPS	15
LESSON PLAN:	15
1. YOUTUBE APP	16
A. WHAT IS YOUTUBE	16
B. HOW TO USE YOUTUBE	16
2. GOOGLE APP	16
A. SEARCH BY VOICE	16
B. WORD PREDICTION	16
WORKSHOP 6: SOCIAL MEDIA APPS, CLOCK, CALENDAR, MAP AND GAMES.....	17
LESSON PLAN:	17
1. SOCIAL MEDIA APPS	18
2. CLOCK APP.....	18
3. MAP	18
4. ONLINE SAFETY AND IPAD SECURITY	18
APPENDICES	19
CLASSROOM HANDOUTS.....	19

Introduction

This curriculum begins with the most basic introduction to iPad, buttons, Apps and their functions. Because this workshop is tailored to beginner learners, and designed to meet needs of persons living with intellectual disabilities, it is important to keep the teaching structure simple and clear at all times and refer back to curriculum frequently. In doing so, facilitators will support participants to fully engage and get maximum benefit from the workshop.

Key to Using this Curriculum

This course is divided into 6 sessions. Each session will have a Lesson Plan for the instructor to use, a section entitled Classroom Handouts which is to be reproduced and given to the participants, and a workshop day presentation. Participants can use the handout to follow along with the activities in the session, as well as to practice at home. The Supplementary Resources and home activity gives information sheets and activities which students can do on their own.

Workshop 1: Introduction to an iPad

Lesson Plan

LESSON PLAN 1

Subject: Introduction to an iPad			
Time: Two Hours			
Desired Results			
Description: The first session will introduce each student to an iPad, and familiarize them iPad buttons, Home Screen, and icons. We talk about iPad care and how to get started using an iPad.			
Objective Participants know what an iPad is, and what buttons and accessories are found on an iPad. Students will begin working with their iPad.			
Learning goal Participants are able to start their iPads and know the functions of iPad buttons.			
Materials iPad, handouts for Lesson One, Wi-Fi, laptop, projector, white board and marker, flip chart			
Lesson Format and Resources			
Time	Activity	Exercise	Resource
20 Min	Introduction	<ul style="list-style-type: none"> Icebreaker game Students introduce themselves 	Game materials; playing cards for name tags
40 Min	What is an iPad and how does it work? Get an iPad up and running.	Participant's Activities #1.1	Facilitator and TAs will assist each participant to work through activities.
10 Min	Break		
30 Min	Familiarize students with different icons, talk about App, and expand on its uses.	Participant's Activities #1.2	
20 Min	Lesson Review Review rules for Safety and Security	Reinforce the Golden Rules of safety	

1. What is an iPad?

The iPad is a touchscreen tablet computer made by Apple; the iPad is basically a netbook without a keyboard, which allows it to be smaller and lighter without sacrificing functionality.

2. What can an iPad do?

Your iPad can do so many things, like take photos and videos, or play music, games, and movies. Using your iPad, you can enjoy reading books and sending e-mail to friends and family.

3. Your iPad accessories

Your iPad comes with the following accessories:

Lightning to USB cable (for connecting to your computer, as well as the power adapter)

USB power adapter (for charging the battery)

4. Buttons

Your iPad has buttons shown in this picture, which make it easy to lock your iPad and adjust the volume.

5. Getting an iPad started

The first time you turn on your iPad, you will be asked to choose a few different settings, like your preferred language, a Wi-Fi network, and an Apple ID. If you don't want to choose all of these settings, you can always skip them for now and change them later.

a. To sleep and wake the iPad:

You can lock your iPad by putting it to sleep when you are not using it. When you lock iPad, nothing happens if you touch the screen, but music continues playing and you can use the volume buttons to increase or reduce the volume.

When you are ready to use the iPad, you'll need to wake it by pressing either the Wake/Sleep button or the Home button. The Lock screen will appear.

The workshop instructor has to keep in mind that participants may be confused in understanding the difference between Passcode and Password. Therefore, it is important to explain this difference in advance, or the Passcode can be skipped at initial level and explained once students have fully understood the iPad security.

b. To turn the iPad on and off:

Most of the time, you don't need to turn your iPad off. You can just use the Sleep/Wake button to keep your iPad in Sleep mode. If you need to turn it off completely (for example on an airplane);

- Press and hold the Sleep/Wake button for several seconds,
- Slide to power off on your iPad screen.

To turn the iPad on;

- Press and hold the Sleep/Wake button until the Apple logo appears.
- Be patient, as it may take a few minutes to turn on completely.

6. iPad Home Screen and Apps

The Home screen is the center of your iPad where you store, find, and launch all your Apps. Press the home button any time to go to the Home screen, which displays your iPad Apps on your iPad.

a. iPad Apps

Apps is short for Application. Apps are your favorite iPad software for music, games, picture sharing, Map and Internet. We get these Apps from App Store on your iPad.

b. Managing Apps

The Home screen displays one icon for every App you get from App Store. This means it can get pretty crowded, especially if you have installed a lot of apps from the App Store.

Here are some tips to help keep your Home screen neat and help ensure your favourite apps are always easy to find:

1. Touch and hold any app on the Home screen.
2. When the icons begin to shake, drag and drop them wherever you want.
3. To move an icon to another screen, drag it to the left or right edge and hold until it switches to the new screen.
4. When you're done, press the Home button to make the icons stop shaking.

c. Create a folder

1. Create a folder by dragging one icon on top of another.
2. To add more icons to the folder, continue dragging and dropping the ones you want.

d. Search for an App

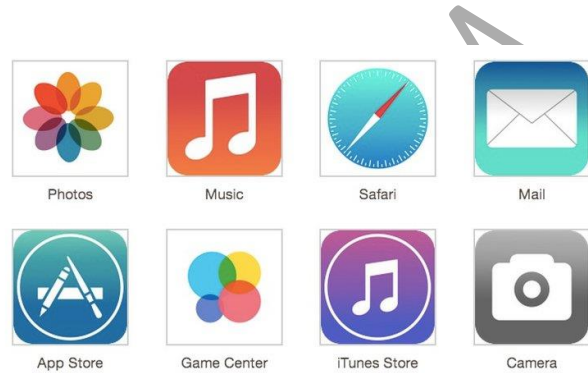

Search for Apps by swiping down from the middle of the Home screen. A search box will appear at the top of the screen. Start typing the name of the desired App.

e. Delete an App

Press and hold any app on the Home screen, then tap the X in the top-left corner. Note that built-in apps cannot be deleted. When you're done, press the Home button.

f. Important Apps on your iPad

The apps shown here are some of the built-in Apps installed on your iPad.

Thank you for perusing the sample, simply email or call Inclusion Regina and we will send you complete copies for free. We'd love to hear about your goals, and we welcome your feedback!
